

SUPER SLUMP BUSTER

Slump Reducing Admixture

ADVANTAGES

- Permits controlled slump reduction
- Allows placement on inclines, curbs, etc
- Permits placing different flows from the same load
- Minimizes segregation
- Does not change water-cement ratio
- Allows for maximum truck utilization
- Faster discharge of concrete from trucks
- Improves finishing characteristics
- Easier placement of concrete in slip-form machines

DESCRIPTION

Super Slump Buster is a dry powdered slump reducing admixture packaged in a patented, ready-to-use, water soluble bag. **Super Slump Buster** is uniquely formulated to provide the ready mix producer with an economical solution to a concrete mix with too high a slump for proper placement.

Super Slump Buster is also environmentally safe and compatible with all conventional materials. It contains no cementitious materials, soaps or air entraining agents, and does not affect air content, strengths or water-cement ratio. **Super Slump Buster** is a viscosity modifier.

DIRECTIONS

1. Determine the amount of **Super Slump Buster** required. See Recommended Dosage Rate.
2. Add the required amount of **Super Slump Buster** to the mixed concrete at the job site.
3. Mix at full speed for 7-10 minutes to insure that the **Super Slump Buster** is uniformly dispersed throughout the mix. For better results let the mix rest 4-5 minutes for slump to be reduced.

RECOMMENDED DOSAGE RATE

Super Slump Buster should be dosed at the rate of one 8-ounce (227 g) water-soluble inner bag per 4 yards for each 2-3 inches of slump reduction

required. Lean mixes or gap graded concrete will require higher dosages of **Super Slump Buster**. Poorly designed concrete mixes with excessive water content might not experience corrected slump.

COMPATIBILITY

Super Slump Buster is compatible with all air-entraining admixtures as well as other conventional admixtures. When used with other admixtures, each one must be dispensed separately into the mix.

PACKAGING

Fritz-Pak **Super Slump Buster**

- 8 oz/227 gram water soluble bag, 60 bags per case (item #97180)

PRECAUTIONS

All Fritz-Pak Concrete Admixtures should be stored in a dry location, protected from breakage, deterioration and contamination. They are not subject to damage from freezing temperatures. **Super Slump Buster** affects slump; it is not a strength enhancer.
